*** These are our recommendations for these services and are not included in the contract price.*

This is a representative schedule of services. Weather and other environmental conditions may warrant slight variation to this schedule. Our goal is to apply the right products at the right time.

SHRUB CARE PROGRAM

JANUARY	HORTICULTURE OIL Smothers scales and other insects
MARCH	SPRING FEEDING 14-14-14 fertilizer applied
MAY	PEST MANAGEMENT SERVICE Mixture of a systemic and contact insecticide
JUNE	PEST MANAGEMENT SERVICE Mixture of a systemic and contact insecticide
JULY	PEST MANAGEMENT SERVICE Mixture of a systemic and contact insecticide
OCTOBER	FALL FEEDING 14-14-14 fertilizer applied

TURF CARE PROGRAM

FEBRUARY Spring I	Fertilize & pre-emergent weed control for crabgrass & broadleaf weeds Spot spray weeds as necessary **Note: if daytime temperatures are under 50 degrees, service will be delayed
APRIL Spring II	Fertilize & pre-emergent weed control for crabgrass & broadleaf weeds Spot spray weeds as necessary **Note: application will be approximately 6 weeks after Spring I
JUNE Summer	Dolomitic lime to manage the pH of the soil **Note: Spot spraying of weeds may occur depending on conditions
SEPTEMBER Fall I	Aeration & Overseeding of fescue lawns Starter fertilizer application Spot spray weeds as necessary **Note: if conditions are hot & dry service is delayed
OCTOBER Fall II	Fertilization Spot spray weeds in lawns that have not been over seeded as new seedlings are susceptible to damage from post-emergent weed controls
DECEMBER Winter	Winterizer fertilization Spot spray weeds as necessary

***If you are on a fungicide program, there will be four applications approximately 30 days apart in the months of May, June, July and August. Fungicide is charged at a rate of 2.5 times the cost of your turf care application rate.*
